## SUPPORT

What kind of comments have you heard from your friends or family when you've told them about seeing a Chiropractor?

---

---

What has been the greatest difficulty when explaining chiropractic and what we do, to others? \_\_\_\_\_

---

Patients often ask how they can introduce others to Chiropractic. You can introduce the Chiropractic health concept to friends by bringing them along to the Health Care Workshop, which is every Tuesday at 6.15pm. That way they can decide for themselves whether Chiropractic could help them with their health. Workshops offer a Complimentary Initial Check-up for attendees and members of their families.

There are also video's and pamphlets which can be shown to your friends, just ask at reception or ask Andrew which would be most appropriate.

Do you belong to a service / sporting club or activity group? Would you be interested in having Andrew as a guest speaker on health at your organisation?      YES / NO

Thank you for letting us know how we can help you more.
